sias, One Deliar per Inch per Month; Single Issue, Inch; Full Position Top of Column. Next Reading 23 Per Cent Additional. Thousand Inches, to He Used In One Year, 1254c

Application Made for Admission to the Mails as Second-Class Matter under the Act of August 24, 1312, or the Act of June 5, 1809.

Then spake Joshua to the Lord in the day when the Lord delivered up the Smonites before the Children of Israel, and he said in the sight of Israel, Sun stand thou still upon Gideon; and thou Moon, in the valley of Ajalon.

And the Sun stood still and the Moon stayed until the people avenged themselves upon their Enemies. Is it not written in the Book of Joshua? So the Sun stood still in the midst of Heaven, and hastened not to go down about a whole day.—Joshua, 10: 12-13.

## FARMERS OF THE COUNTRY HAVE AN IN-TEREST IN THE TARIFF.

In appealing for co-operation in its efforts to open a grand channel for the bringing of Central and South American cattle duty free into this country, the New Orleans Association of Commerce appears to have missed its purpose and sounded a warning instead. "By working for an expansion of this business, the valley will work on its own interest," recites a circular letter sent broadcast by the association, referring to a trial shipment of six thousand head now under way. Naively pointing out the danger, the letter says that "under ideal conditions and the lowest direct freight rate." there may be imported "hundreds of thousands of Central and South American cattle."

cattle."
All of which doubtless sounds like excellent business enterprise to the Eastern packers who are behind the experiment, but has a sinister ring to the cattlegrowers of the country. It brings home clearly to the farmer that the tariff is not a matter of exclusive interest to citizens of the coast states. His appreciation of the activities of the democratic administration in removing the protective duty will be considerably sharpened if the price of beef on the hoof at Kansas City and Chicago is to be made on the basis of "hundreds of thousands of head" brought to this country under the advantage of open competition.

Sugar is higher now in the United States than it was when the democrats "reformed" the tariff and thus "reduced" the coat of living. Furthermore, imports of foreign sugar, notwithstanding the demoralization that has prevailed for the past nine months in the sugar belt of Germany. Belgium and France, increased over half a billion pounds. At the same time, the government revenues decreased over \$18,000,000 as a result of the 25 per cent sugar tariff reduction, and the net treasury balance steadily fell until it is now only \$25,000,000, lower than it has been in years. It is still falling at the rate of \$2,000,000 a week, in spite of the war revenue bill. Democratic tariff tinkering has therefore brought increased prices, falling revenues and a possible bond issue.

It is useless for the country press to continue their fight on the mail order houses. They have been poorly supported in their fight by country merchants who sit back and say, "Oh, I can meet all competition," and then let the matter rest all competition," and then let the matter rest business. However, the editor of The Sun reserves the right to conduct his own business. all competition," and then let the matter rest there. The mail order houses are here and they have come to stay, and woe unto the country dealer with a handful of goods who sits in the rear of his little place and says "I will meet all competition," The day is past when people will have been out and been to buy his wares. These competition. The day is past when people will seek him out and beg to buy his wares. These little merchants will either have to shut up shop or fight the mail order houses with the same kind of amountion the mail order houses use—publicity and low prices.

There is plenty of room in Price for two newspapers. If you don't spend your money with one, why see that the other gets it. This also applies to the Job printing plants conducted by each of the newspapers. If the money sent away from Price for printing was kept at home there would be more men with 7amilies employed here.

Amos Pinchot has declined to become chairmas of the progressive committee of New York City. He appears to take it that it is time to quit when Giff can be beaten half a million by the despised Penrose.

#### NEWSPAPERS ARE ALWAYS PROMINENT-LY IN THE FRONT RANK.

The outstanding feature during the recent convention of the Advertising Clubs of the World at Chicago was the prominent part taken by the newspapers. This is, of course, as it should be but the fact is nevertheless well worth recording, for, while newspapers have always been boosting some person or party or thing, they do not often get such a well merited opportunity to boost themselves.

The press of the country seems in the beginning to have decided that this convention offered a real opportunity to "show them," and in accordance with this decision the newspaper delegation to the convention was among the largest

The press of the country seems in the beginning to have decided that this convention offered a real opportunity to "show them," and in accepting the pure Line Each Release them. Headers and Legal Notices 10c for Line Pires In Resolutions. Etc., at laif Loval Resol

other.

A wave of business sense is sweeping away the out of date methods of the newspaper office. The "country" publisher has joined hands with his larger brother of the city and is determined to drive away the free space pirate, the rate cutter and all others who will not do business in a business way. This applies particularly to the rate cutter who finds his way into the advertising columns of such country papers as have not entire control over themselves. In other words, the "all home print" principle is growing greater every day. This is entirely in accord with the spirit of the times. The day is rapidly approaching when every "country publisher" will say what goes into his paper and what does not. And when it does no in he will be paid for it.

That day will see the sum now spent on newspaper advertising multiplied many fold.

The bars the tariff tinkerers attempted to let down heretofore have been held in place by the bureau of animal industry, seeking to prevent the introduction of the cattle tick and various discusses prevalent in the districts from which the shipments would originate. Pressure from the Eastern packers and near-sighted New Orieans enthusiants has been so exerted through democratic officials that this safeguard is about to be waived, however, and the first consignment is due to arrive within a fortnight.

The urban consumer, who sees in the demoralization of the domestic cattle market a prospective lowering of the cost of living, is reminded that for this purpose the tariff was also removed from dressed beef. Great shipments have since arrived continually from Argentins, while the retail price of meat has ateadily climbed. The New Orleans Association of Commerce has performed a useful service.

The farmer is reminded that he has a personal interest in the tariff, and likewise that in 1916 the was the last time they would vote that promise made to themselves. "

Sugar is higher now in the United States than it was when the democrate "reformed" the tariff the democrate "reformed" the tariff the democratic ticket. Now they are out to keep that promise made to themselves."

On June 28, 1914, one year ago, a junatic in the streets of Serajevo, Serbia, murdered the Archduke of Austria. As a result of the fatal shot, eleven countries are now engaged in the most cruel war in history. We have had a year of it and despite all the expert calculations, the people of countries looking on are unable to find anything gained—but everything lost. We shall probably have another year of it—possibly two—and then that shot will cease to echo. And when it is all over and the spoils distributed none will have gained anything worth while. It is simply a fah war and no philosophical or military treatise can ever change this impression in the minds of the vast majority of thinking men. Would that one year of it were all—certainly one year is enough.

eet all Anyway, it was a safe and sane Fourth in all the will the towns and settlements of Price River Valley These and the coal camps surounding. Not an accident of any consequence anywhere.

In the meantime how many residents of Car-bon county have been given work on the roads onder Eggleston & Mathew? Men or men and teams? Local taxpayers?

It isn't always safe to bet your money on the orrectness of "information" sent out from Price to the Salt Lake City press

Ask the postmasters of Carbon county whe ther The Sun is increasing in circulation or de-clining.

About the only people whom the truth doesn't hurt are the dead ones.

### THIS IS THE TEAM THAT WON THE GAMES FOR PRICE

Left to right—Thomas Averill, pitcher: Roy White, catcher: Fred Donly, a Nick Bernardt, right field: Irvin Ward, second base; "Skinny" Wilson, center Dan Ford, third base; Henry Shelley, first base.
